

VASYL BAKHMUT

TRAINEE/JUNIOR WEB DEVELOPER

Dear Principal,

Dear Sir/Madam,

I am excited to apply for the position you have available within your company. My career transition from construction management to web development reflects both my adaptability and passion for continuous learning. While my early career was centered around managing building projects, in 2021, I had to step back due to health challenges. This experience led me to pursue a new path in technology, where I found a renewed sense of purpose and motivation.

After a period of recovery, I dedicated myself to learning web development. Since then, I've earned diplomas in Front-End and Full-Stack Development, applying my skills to various projects, including an e-commerce and a web tool for monitoring physical activity. I led each project from start to finish, handling everything from architecture to deployment.

I am eager to bring my technical skills and determination to your team and would appreciate the opportunity to discuss how I can contribute to your projects.

Thank you for your time and consideration.

Sincerely,

Vasyl Bakhmut
